

SKYFORM

ENVIRONMENTAL POLICY

It is the policy of Skyform to provide an environmentally friendly and safe working environment for all operations undertaken.

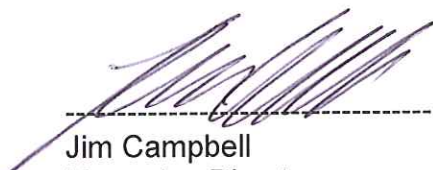

This Policy states the commitment of Senior Management and members of the organisation to the implementation and maintenance of waste management, recycling and other sustainability procedures to control and minimise impact on the overall environment. Skyform accepts responsibility for controlling spillage and waste materials resulting from plant and maintenance activities by inspection, reporting and follow up of any hazard or risk identified.

The company acknowledges its environmental responsibility towards employees, those persons who visit its premises and the general public.

Every employee of Skyform has a responsibility for conducting him or herself in a safe working manner, ensuring no negative impact on the environment or health of others. Employees must wear applicable safety clothing, use appropriate equipment and personally ensure activities comply with Jurisdictional Acts/Regulations, Codes, British / European Standards and ISO 14001 by reporting unsafe work practices, places, equipment, processes or situations.

Managers, Yard / Site Managers and Supervisors have the additional responsibility of monitoring the work environment, identifying training and equipment needs, record keeping, implementing work procedures and investigating incidents as related to the applicable Environmental Legislation

Skyform has appointed HSE Managers and Advisors who have defined Environmental, Health and Safety authority and responsibilities

Jim Campbell
Managing Director
